

There is no audit for Doge Farmer currently.

We've seen and witnessed many projects got rugged and scammed right after they received their audit either on techrate, dessert finance, certik, solidity finance, solid and other firms. Having an audit will mostly indicate a scam is in plan.

However if you have any questions regarding scam and rug feel free to ask us in our telegram chat group. We will answer you transparently with what is truly going on behind the scene.

Audit is nonsense.

Regards.

Doge Farmer.
