

Doge Farmer White Paper v1.0

Tokenomic

Doge Farmer Token is made to place the mind of our investors at ease. Using a concept of harvest in 4 seasons, we integrate 4 tax systems in the contract seamlessly. Those taxes are:

- 10% \$BTC reflection, automatically pay to holder's wallet
- 2% automatic liquidity pool, until it reach the target of a minimum 25% Mcap
- 2% automatic buy back and burn
- 2% lottery jackpot, reserved for lottery winners
- Total 16% returns

- Marketing: 6%
- Deploy on Binance Smart Chain Network
- Contract Address: TBA
- Audit: TBA
- Website: dogefarmer.finance
- Twitter: twitter.com/dogefarmerbsc
- Telegram: t.me/dogefarmerbsc

Introduction

We've seen a lot of doge family tokens rise and fall, what's the reason to create another doge family token? It's because we love \$doge so much and the world also in the same euphoria since Elon tweeted about it. It can be the base for so many use case.

What makes our token different is that on the taxes side of our contract, not only reflection is working but Auto LP and Buy Back as well, not to mention Anti Whale when it deemed to be necessary. On the plus side, none of these taxes will go to dev wallets, we reserve 6% for marketing and that's about it.

When the floor for DGF is solid enough to take this project forward, any use case could be possible with the community voting for its future. Some of them could be and not limited to: NFT Market, NFT Games, NFT Staking, Dog Rescue, Animal Charity, Doge Farmer Merchandises, Swap and DEFI Platform, Lottery, etc.

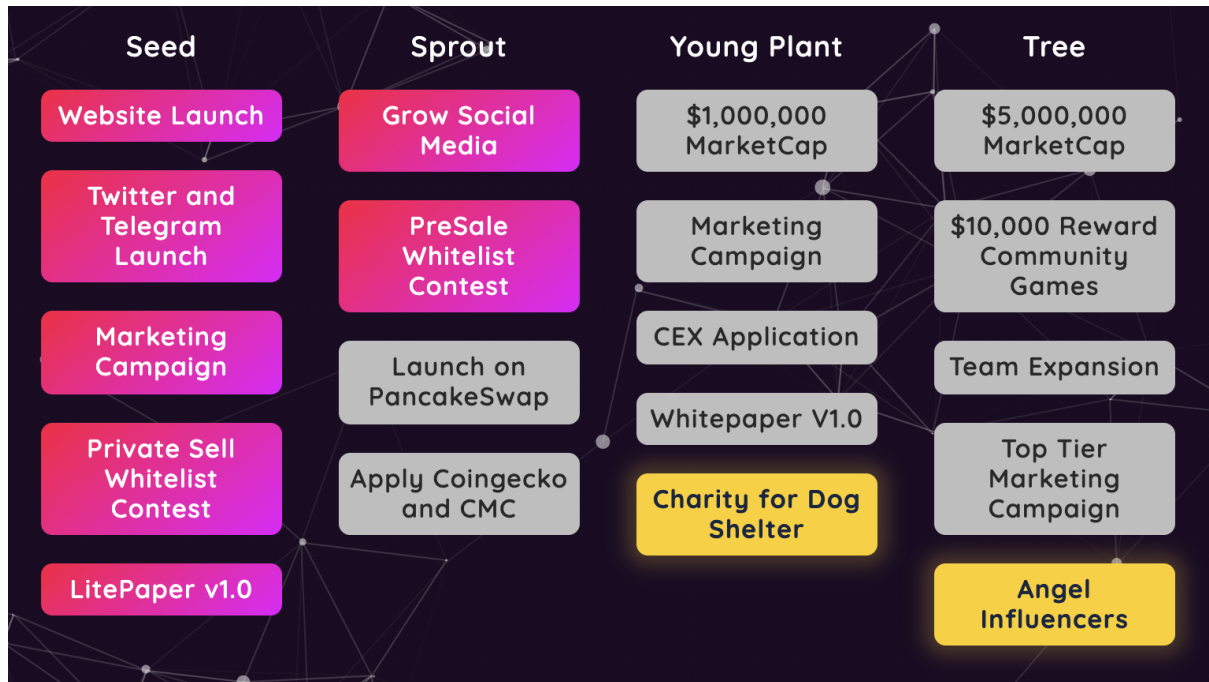

At Doge Farmer we wouldn't spit out empty promises just to lure investors in. At the right time, investors can check out our contract and see that most of the selling points are true to its core.

The Team

We are modest people from all around the world, looking to make the world a better place for animals and humankind.

Founder and Funder	: Max / Anonymous
Core Marketing Office	: Raynier Vazquez / Spain
Lead Marketing Officer	: Nettooo / Singapore
Core Community Officer	: Mr. Marhkson / Africa
Art & Design Officer	: Yeti Iglesias / Mexico
Developer	: Ben / UK
Advisor	: Caribbean King / Anonymous

Road Map

Due to the volatility of BlockChain Market, each stage will be divided into 1 week to 1 month time.

Marketing & Social Media

Conventional marketing in the BlockChain world just isn't enough anymore, we'd be implementing a strategy that would drive traffic in and continue to improve along the way.

- We will have an International Actor to give us a shoutout on a video. The actor's name is yet to be disclosed.
- Female Host on Voice Chat on our Presale Launch
- Reddit
- CoinSniper, CoinVote
- Twitter Influencers
- Youtubers
- Airdrop Contest
- 24 Hours Lottery after listing on PancakeSwap (every hour)

Doge Farmer Lottery

- Lottery will be drawn every 24 hours
- 2% tax gathered in winter season from all transactions will go to the Prize Pool
- 0.1 BNB worth of \$DGF equals 1 ticket for the lottery
- There will be 2 winner classes: Farmer and Trader
- Farmers have to hold presale \$DGF tokens for at least 24 hours and will be eligible every day for the lottery
- Farmer Winner will be exempted from the lottery unless he or she buy another ticket for the next lottery round
- Traders have to buy at least 0.1 BNB of \$DGF to enter the lottery on every round
- Sellers will be automatically removed from lottery entries
- Farmer Winner gets 60% of the Prize Pool
- Trader Winner gets 40% of the Prize Pool
- Maximum Winners every 24 hours: 10
- Prize distribution: 24 hours after announcement
